

# HOW TO APPLY FOR BIPARTISAN INFRASTRUCTURE LAW FUNDING

## *Through the Army Corps of Engineers*

U.S. Senator Gary Peters

U.S. Senator Gary Peters (MI) helped pass the bipartisan Infrastructure Investment and Jobs Act into law which will help grow our economy, strengthen our economic competitiveness and make our economy more sustainable, resilient, and equitable.

The Army Corps of Engineers play a vital role in Michigan from helping respond to the COVID-19 pandemic to building infrastructure throughout the Great Lakes. Gary has advocated for such projects including upgrading the Soo Locks in Sault Ste. Marie, which serve as a gateway to transport nearly 80 million tons of goods and raw material that supply the region's manufacturing, mining, and agricultural industries.

See below to learn about programs through the Army Corps of Engineers that are supported through the bipartisan infrastructure law – and how you may be eligible to apply for assistance.

### **Funding By Budget Account:**

- **Construction (\$11.6B)**
  - Harbors and Navigation Channels (\$1.5B)
  - Inland Waterways (\$2.5B)
  - Coastal Storm Risk Management (\$2.55B)
  - Inland Flood Risk Management (\$2.5B)
  - Aquatic Ecosystem Restoration (\$1.9B)
  - Continuing Authorities Programs (\$465M)
