

## United States Senate

May 21, 2025

The Honorable Lisa Murkowski  
Chair  
Subcommittee on Interior, Environment, and  
Related Agencies  
U.S. Senate Committee on Appropriations  
Washington, DC 20510

The Honorable Jeff Merkley  
Ranking Member  
Subcommittee on Interior, Environment, and  
Related Agencies  
U.S. Senate Committee on Appropriations  
Washington, DC 20510

Dear Chair Murkowski and Ranking Member Merkley:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2026 Interior, Environment, and Related Agencies Bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Gary C. Peters  
United States Senator

**Peters, Gary(D-MI) Interior and Environment  
Congressionally Directed Spending Requests**

<b>Recipient Name</b>	<b>Project Purpose</b>	<b>Project Location</b>	<b>Amount Requested (\$000)</b>
City of Auburn Hills	The funding would be used to make improvements to two stormwater retention basins.	Auburn Hills MI	\$1,000
Bay County Department of Water and Sewer	The funding would be used to build two, 5-million-gallon storage tanks at the Bay Area Water Treatment Plant to improve system reliability.	Bay County MI	\$2,000
Village of Bellevue	The funding would be used to build a new drinking water well to ensure continued safe drinking water for the residents and surrounding community.	Bellevue MI	\$144
Village of Bellevue	The funding would be used to improve solid waste processing infrastructure at this wastewater treatment plant.	Bellevue MI	\$2,481
City of Berkley	The funding would be used to replace approximately 250 lead water service lines.	Berkley MI	\$350
City of Cadillac	The funding would be used to connect 150 properties that are impacted by PFAS contamination to the City's Municipal Water system in order to better ensure access to clean drinking water.	Cadillac MI	\$1,400
City of Caseville	The funding would be used to upgrade the water treatment plant's filtration system and to provide for an emergency backup generator for the systems raw water supply to bolster reliability.	Caseville MI	\$500
City of Cheboygan	The funding would be used to reduce infiltration and inflow of storm drainage into the City's sanitary sewer system in order to reduce discharge of sewage into the Cheboygan River and Lake Huron.	Cheboygan MI	\$3,500
City of Dearborn Heights	The funding would be used to separate a combined sewer in Dearborn Heights.	Dearborn Heights MI	\$1,000
City of East Tawas	The funding would be used to upgrade water and sanitary sewer lines.	East Tawas MI	\$2,552
Emmet County	The funding would be used to remediate contaminated soil at the Pellston Regional Airport to eliminate ongoing leaching of PFAS.	Emmet County MI	\$496
City of Fennville	The funding would be used to replace a contaminated well to restore water capacity and quality for the Fennville Area Water System	Fennville MI	\$375
Charter Township of Fenton	The funding would be used to connect Fenton Township, the City of Linden, and Mundy Township to the Genesee County public water distribution system for potable water.	Fenton MI	\$4,000
City of Grand Blanc	The funding would be used to modernize the water mains throughout the city, reducing inefficiencies and water loss and improving water reliability for residents and businesses.	Grand Blanc MI	\$1,000
City of Grand Haven	The funding would be used to address pollutants in a former coal community, and preserve and protect land in the center of the Grand River as it leads out to Lake Michigan proximate to the municipality's drinking water intakes.	Grand Haven MI	\$1,000
City of Grand Rapids	The funding would be used to replace lead service lines throughout the city.	Grand Rapids MI	\$2,500
Charter Township of Grayling	The funding would be used to provide clean, safe drinking water through a new municipal water system to residents whose water wells have been contaminated from PFOS migrating off the Grayling Army Airfield and Camp Grayling.	Grayling MI	\$3,000
City of Grosse Pointe	The funding would be used to replace lead service lines throughout the city.	Grosse Pointe MI	\$700

City of Grosse Pointe Farms	The funding would be used to relieve chronic basement, street, and surface flooding through the separation of combined sewers.	Grosse Pointe Farms MI	\$1,000
City of Grosse Pointe Park	The funding would be used to upsize a water main.	Grosse Pointe Park MI	\$700
City of Kalamazoo	The funding would be used to replace lead service lines in Kalamazoo's Vine neighborhood.	Kalamazoo MI	\$1,000
City of Lincoln Park	The funding would be used to replace aging sewer lines in the City of Lincoln Park to help reduce flooding events.	Lincoln Park MI	\$3,000
Macomb County Public Works	The funding would be used to establish a trash capture and sediment control system to reduce the volume of contaminants entering Lake St. Clair.	Macomb County MI	\$1,000
City of Marine City	The funding would be used to make improvements to the city's aged wastewater system that would prevent future sanitary overflows and excessive infiltration and inflow to the wastewater treatment plant.	Marine City MI	\$1,500
Marquette County	The funding would be used to upgrade the disinfection system at the K.I. Sawyer Wastewater Treatment Plant.	Marquette MI	\$1,370
Village of Mattawan	The funding would be used to remove the lead-based paint from the interior and exterior of the tank and repaint with epoxy paint.	Mattawan MI	\$200
City of New Baltimore	The funding would be used to remove debris blockage within the city's sanitary interceptor sewer & wastewater treatment plant inlet chamber and to construct a wastewater bypass system for dislodged debris and a drying bed for debris disposal.	New Baltimore MI	\$951
City of Northville	The funding would be used to provide critical improvements to the dated and undersized city water supply system.	Northville MI	\$2,500
Oakland County	The funding would be used to improve drinking water quality and reliability for Pontiac residents.	Oakland County MI	\$1,000
Redford Charter Township	The funding would be used to replace lead service lines in Redford Charter Township.	Redford Township MI	\$1,000
Charter Township of Royal Oak	The funding would be used to replace key water mains at the end of their useful life and build an emergency connection to a neighboring community to provide adequate fire flows to the Township's only commercial area.	Royal Oak MI	\$1,000
City of Saginaw	The funding would be used to replace approximately 1.25 miles of water main along Weiss Street in the City of Saginaw, including lead service lines.	Saginaw MI	\$1,000
City of Southgate	The funding would be used to install a relief sewer underneath Barbary St. to temporarily store stormwater during heavy rain events, providing critical flood protection.	Southgate MI	\$1,000
City of St. Ignace	The funding would be used to update the communication system that controls the facility's alarms and communication between water plant and wastewater plant and other facility operations.	St. Ignace MI	\$36
City of Tawas City	The funding would be used to provide the City a direct water main connection to the Huron Shores Regional Utility Authority to help prevent any disruptions in water services to the City's residents, businesses, county services.	Tawas City MI	\$1,950
Van Buren Township	The funding would be used to replace an aging asbestos concrete water main.	Van Buren MI	\$500
Great Lakes Water Authority	The funding would be used to design and construct improvements to both the Freud and Conner Creek pump stations, built in 1954 and 1928, respectively.	Wayne County MI	\$1,000
Wayne State University	The funding would be used to repair exterior masonry tuckpointing using historically appropriate methods and to replace damaged and deteriorating chimney, roofing, and flashing in select areas.	Wayne County MI	\$550

Great Lakes Water Authority	The purpose of this project is to design and construct isolation of the downstream portion of the Northwest Interceptor from the Water Resources Recovery Facility (WRRF) and divert flow to the Oakwood Pump Station.	Wayne County MI	\$3,000
Ypsilanti Community Utilities Authority	The funding would be used to upgrade water mains in Ypsilanti.	Ypsilanti MI	\$1,042
